

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 2013-298-E - ORDER NO. 2019-123
FEBRUARY 12, 2019

IN RE:	Application of Duke Energy Carolinas, LLC)	ORDER GRANTING
	for Approval of New Cost Recovery)	REQUEST TO MODIFY
	Mechanism and Portfolio of Demand-Side)	RIDER
	Management and Energy Efficiency)	
	Programs)	

This matter comes before the Public Service Commission of South Carolina (“Commission”) on the request of Duke Energy Carolinas, LLC (“DEC” or “the Company”) to modify its PowerShare Nonresidential Load Curtailment Rider (“Rider PS”) to remove the limitation on a participating customer’s demand that may be curtailed. Under the currently effective Rider PS, the maximum demand that the Company may curtail from a participating customer is 50,000 kilowatts. According to the Company, removing this cap will permit it to curtail greater amounts of voluntarily participating customers’ demand and subsequently increase the program’s cost effectiveness for ratepayers.

The South Carolina Office of Regulatory Staff has been served with a copy of the Company’s request and has no objection or opposition to the Petition that has been filed in the Docket. The Commission has fully reviewed DEC’s request and found it to be consistent with the public interest, and therefore approves it.

This Order shall remain in full force and effect until further order of the Commission.

BY ORDER OF THE COMMISSION:

Comer H. "Randy" Randall, Chairman

ATTEST:

Jocelyn Boyd, Chief Clerk/Administrator
